

ROBUSTNESS :

- Chassis and forks in sturdy high resistance steel
- High efficiency pump with chromium-plated piston
- Pump protection against overload

QUALITY :

- Bearings greased for life
- Axles fitted with greased nipples
- Protection by an acrylic paint applied after sand blaster treatment

ERGONOMICS :

- Control lever with three positions, well protected inside the rounded handle of the steering column
- Very precise control for lowering loads
- Automatic return of drag bar to vertical position
- Steering wheels and fork rollers with a polyurethane tread for a good loading capacity and minimum effort to move
- Introduction rollers
